**God's Word is translated within language communities throughout the world. Even today, there are still those who find themselves in a similar situation as those in the European Church 500 years ago – they have no portions of Scripture in their languages and must trust expertise in other languages to hear the truth within God's Word. Where God's Word is translated, the barriers are removed as Christ comes to those within a language community right where they are through His Word, even to the very ends of the earth. The Reformation continues.**
